

**HARRIS ASSOCIATES**

## **Implementation Support for Continuous Improvement**

# **Continuous Improvement Regeneration** (What to do if your CI efforts run out of steam)

### **A workshop for Chief Executives, Directors and Senior Managers**

If your people's improvement efforts have slowed down and the benefits of your CI Strategy are tailing off, you *can* rejuvenate the process to regain continuing benefits.

Learn from the best practice of others who have found that regular regeneration of their CI Strategy *does* enable continuing improvement throughout the organisation.

This thought-provoking one-day planning workshop will point the way forward for your organisation. It covers:

- The problem of stagnating improvement efforts.
- Learning from the experience of others.
- The management mindsets used in approaching CI: how they differ and how they influence people's efforts.
- Evaluating the implementation approach used to date – a detailed assessment of the understanding, relevance, importance and use of the activities of your CI Strategy so far and the management mindsets behind them.
- Developing a CI Regeneration Strategy for your organisation – the management mindset that should be taken and the key activities required.

*To ensure that the long-term implementation of your  
Continuous Improvement Strategy benefits from this important workshop,
